

PLEASE do not make "do not call" restrictions more lenient in NJ. We used to receive a minimum of 5 calls per day to as many as 10 (I received calls as early as 7:40 am and as late as 10 pm). Having call waiting helped at times, but our phone was CONSTANTLY ringing. I pay for a phone in my house for ME to use, not to be harrassed by salespeople. There is finally peace from the invasion of calls..I'm begging you , please don't take that away.
